Prohibition in the Northwest—A Boy Killed in Winnipeg—A Bear at Large.

Suicide at Niagara Falls—A Libel Suit Against the Toronto "Empire."

Special to THE TIMES.]

Regina, N. W. T., Nov. 20—The debate on Taniff's motion in the legislature, providing for vote of the people on the liquor question was concluded at 2:02 o'clock, and the motion carried. Western members strongly opposed it claiming if prohibition were carried in Alberta the people there would ignore the law. They favored high license.

Winnipeg, Nov. 20.—Oliver Stephenson, a young lad of 10 years, was run over and killed last night. An inquest will be held to-day.

Toronto, Nov. 20.—The latest developments in connection with the suicide on Friday at the Suspension Bridge of an English commercial traveller, Fred. Barber, are of a most painful nature. The woman whom he married on Wednesday turns out to be a woman of this city known as Polly Bredin. She has been for five years past living as a prostitute in various houses of ill-fame, and there can be no doubt that it was the discovery of the disgraceful condition he had unwittingly performed that drove Barber to commit suicide. Polly Bredin is handsome and well educated and contrived to thoroughly dupe Barber. Her identity was discovered owing to her alleged husband.

Dr. Mallory, Liberal candidate for East Northumberland, gives notice that he will take proceedings against the *Empire* for saying he would probably seek election as an Annexationist.

The impression prevailes that Bishop Cleary, of Kingston, will be appointed Archbishop of Toronto, and Dean Gauthier, of Brockville, will be made Bishop of Kingston.

The Assizes—Another River Steamer Wanted.

Special to THE TIMES.]

New Westminster, Nov. 20—At the assises the case of Jones, charged with the murder of Durant at Johnston's Landing, has been in progress since yesterday morning and the trial will scarcely be concluded to-day. The court-room was crowded with people and much interest was manifested in the proceedings.

A deputation of the Board of Trade waited on the Mayor and Aldermen last evening for the purpose of urging on them the advisability of subsidizing a freight and passenger steamer to make daily trips between the settlements along the Delta of the Fraser. The Council will take the matter into consideration.

ACCIDENTAL SHOOTING.

What Shall We Do?—Frequency of Accidents.

From Our Own Correspondent.]

Burgoyne Bay, Nov. 10—Just now when everyone is aroused at the sad case of accidental shooting we deem it appropriate that we express our deep horror at the sacrifice of lives at the altar of innocent slaughter. The late calamity is not the only one, though terrible enough to suffice for that. It is a recurring tale. It is the ruthless tearing away, within a moment's notice, of a life possibly destined to be of benefit not only to the commonwealth, but as well to himself. It is calling into the silent dust a soul God had placed on this earth for a purpose. How much that all implies? Only two short years ago one of Cowichan's best fathers was hurried by a leaden bullet from this earthly theatre, leaving behind a weeping wife and sweet children, who needed a father's guiding hand. Only a few months ago an accidental missile snatched from a field two pretty children, and we might enumerate many more. Is it not time that we awoke from our lethargy, or must we wait until the next victim falls, or the next after that? Who, indeed, may rest assured that he is free from harm? Now, we do not wish to lay particular blame to the unfortunate slayers of the past. We verily believe it was accidental and causing much sorrow to all. But there should be far more care exercised in the handling of so terrible an instrument. It should be practiced as well in the woods as at home. Give the benefit each time to the deer. Touch no trigger until assured not only that it is a deer but that no human form is where it could be destroyed. May the sad story not reach our ears again for many years, aye for ever. There should be something done legislatively in the matter. If imprisonment for a certain number of years were the lot of one who through negligence or carelessness took a human life, then presumably how much less ground for unmitigated sorrow there would be. It is well known that forcible means have to be resorted to where fair ones fail. We doubt not such should pass if only people saw their duty in this matter.

[The above was received some time ago, but has been inadvertently overlooked.—ED.]

Canadian Pacific Cable.

London advices state that a public meeting is to be called to bring pressure upon Parliament to secure an appropriation for the Canadian Pacific cable survey. This is a matter which interests the Pacific Coast, says the San Francisco *Examiner*, to a greater extent, perhaps, than any other section of the country. If the project as originally outlined had been carried out San Francisco would be the Pacific terminus of the cable to Australia, but Congress did not see fit to appropriate any money for the purpose, and as a consequence the enterprise has drifted exclusively into British hands. Should the Canadian Pacific cable be laid, of which there can be little doubt, the initial point on this coast will be on British territory, and we shall pay toll to English capitalists every time a cable is used.

The facts regarding this scheme, which is being presented in London, will be of interest. When Mr. Owen Jones, one of the directors of the Pacific Cable Company, recently passed through this city for London, he reported that the Australian and New Zealand governments were willing to join Canada and the Imperial government in guaranteeing interest upon the requisite capital to lay a cable connecting this coast with Australia. It was understood that Lord Salisbury's government was pledged to guarantee a sum equivalent to double the united colonial guarantees. Upon this basis the capital was forthcoming, it being well understood that a Pacific cable could not pay as a business enterprise in competition with the Eastern Extension Company's cable, which is heavily subsidized for a term of years by all the Australian colonies.

A hitch occurred, however, in the negotiations with the British Government. Lord Salisbury had changed his mind to some extent, owing to the representations of Sir John Pender, Chairman of the Eastern Extension Company, who is said to be the most influential capitalist in London. The outcome was the refusal by the Government to take the initiative, Lord Salisbury was willing, however, to act upon any recommendation by Parliament, hence the public meeting on behalf of the Pacific Cable Company to which reference has been made.

An appropriation will be strenuously opposed by the Eastern cable and telegraph monopoly, but public opinion will doubtless prevail in its favor. The warship Egeria is now employed "clearing up the dangers and fixing the positions of and surveying the islands on the route from New Zealand to Vancouver," as the Lords Commissioners of the Admiralty informed the Colonial Office; but a detailed survey of the cable line between the points stated will occupy not less than three years and cost about $180,000. This is the sum which the Imperial Parliament will be asked to appropriate for that service.

Smallpox in Portland.

A well known resident of this city returned from Portland on Saturday night and reported over 50 cases of smallpox in that city. A small boy was suddenlyattacked with the disease in a schoolhouse at Salem and created a panic amongst the school children.

A Three-Year Clean Up.

Mr. Griffith, who is the only white man operating on Wild Horse Creek, says the *Donald Truth*, is hydraulicing, and has not cleaned up for three years. He will make a clean up this year. He thinks he has between $15,000 and $20,000 in his flumes, and has picked up several good nuggets this summer, one of them being worth $50, one $15, and one $11.

Fastest Tug Afloat.

The tug Sea Lion leaves in a few days for Puget Sound, says the San Francisco *Chronicle*, to do battle there with the English tugs, who now for the most part have the towing business cornered, shutting out American tugs. The Sea Lion is the fastest tug afloat, and Captain Lucky is as clever a sailor as ever commanded a boat on the bay, and it has been predicted along the front that when the Sea Lion gets up to Puget Sound she will give the foreign crafts a turn.

Is There an Analogy?

Some time ago Dr. G. Hamilton Griffin edited a weekly newspaper in this city called the *Social World*. The business The Doctor attended to business in the upper portion of the building. The office was on the right side after ascending the stairs. On the wall immediately facing a person going up the stairs is a large "black hand," which was drawn on the wall by Dr. Griffin some months ago. The index digit points to the office of the *Social World*.

Good Crops.

Reports from the Kootenay river section of this district are that the ranchmen there have had a good season. The oats and potatoes were exceptionally fine. When the quartz mines around Kootenay lake are opened up, the ranchmen to the east will have a good home market for their truck. Next summer the C. P. R. will build a road to connect the lake with the Columbia river, and, if the route is found practicable, the road will be extended east, through the Crow Nest Pass, to Fort Macleod and Lethbridge. When that road is built ranches in the Kootenay country will be worth money.—*Donald Truth.*

Kootenay Valley.

A young Englishman writes of the Kootenay valley: "The country is almost everywhere beautiful, and in many ways most desirable as a home. The drawbacks, from a lady's point of view, are, however, considerable, and we should not advise any woman to go out there who is not thoroughly *able*, as well as willing, to rough it, and to trust to her own resources. For young unmarried men with capitals, say of £2,000 to £5,000, we believe there are great chances. In the Kootenay valley there are already not a few Englishmen, and the available good land there is diminishing in area very rapidly. Both there and in the Columbia valley there are still plenty of spots worth taking up, but a railway would change that condition of affairs in a moment, and any one wishing to acquire land there has, we should say, no time to lose."

NUN OF KENMARE.

Her Reasons for Resigning—Broken in Health.

Utica, N. Y., Nov. 16.—Sister Mary Frances Claire, "The Nun of Kenmare," and recently Mother Superior of the Sisters of Peace, is now living in retirement in this city engaged in literary work. To-day she made public her letter of recognition to Pope Leo XIII. Following is an extract from it:

"*Holy Father:* It is with great grief and regret that I addres this letter to your Holiness, I am obliged to resign into your hands the office to which you were pleased to appoint me, and to leave to others the work of the Order of Peace which your Holiness has authorized to be established.

"I have not taken this step without long and careful consideration, for I see every day more and more the necessity of such work as this for working girls. They have indeed been a great support of the Roman Catholic Church, and they deserve all that can be done for their comfort and encouragement.

"But I have found such opposition to this work, which I do dearly love, from certain Bishops whose influence is so powerful that other Bishops do not like to support what they disapprove, even though it has the sanction of your Holiness, that I am obliged to retire from it. My health, always delicate, has given way under the pressure and pain of the discouragement."

TO-DAY'S DISPATCHES.

British Politics and Randolph Churchill—Judges Creatures of the Government.

The Cook Islands Annexed—Hon. John Bright—Salisbury's Difficulties.

London, Nov. 20—The bulletin from Rochdale this morning says Mr. Bright got some rest, the dangerous symptoms abated, and the patient's condition shows some improvement.

LORD RANDOLPH.

What has come over Lord Randolph Churchill is the question everyone is asking. His meeting at Paddington was large, enthusiastic and expectant. Though his speech was excellent, indeed one of his best, the feeling left on the minds of the audience was slightly disappointing. They had gone to hear him curse the government. He did nothing but bless them. Herein was the disappointment. Lord Churchill's great power lies in the attack. He is never better than when pointing out the foibles and shortcomings of his opponents. There was not an opportunity wanting, notably the opportunity of criticising his whilom friend and adviser to the Home Secretary; but Lord Randolph forebore. He is clever enough to see the increasing power of the temperance party in England, and is therefore a little ungrateful to his old friend the publican; but he is satisfied that the real work for parliament is to be found at home. In social questions that interest and affect the masses of the working people in England, he is perfect. Mr. Goschen has put down his foot at last and means to go on with the obnoxious wheel tax. Thirty-five conservatives are known to be opposed to it, but under the pressure of the whip many of them will doubtless return to a docile frame of mind. Some, however, have determined to stick to their guns. Public opinion in the manufacture of constitutences will support their action. Mr. Goschen is by no means sanguine of success. The railing of Mr. Mathews on Thursday night by Commander Bethell, who owes Sir Charles Warren a debt of gratitude, was an attempt to revenge his brother's death, and by Mr. Johnston, of Bally Kelteg, who hates Mr. Matthews on theological grounds, was a most edifying spectacle. Mr. Matthews has never been in touch with the House of Commons and would only be too glad to retire if it were not for a dogged determination of Lord Salisbury to support him. Mr. Smith is strongly of the opinion that a change is desirable, the press being practically unanimous in recommending it. The Prime Minister now shows signs of yielding.

DIFFICULTIES AHEAD.

There are numerous difficulties ahead if Lord Salisbury adheres to his resolution of not sending another minister to Washington until the American government has expiated the offence of dismissing Lord Sackville. Mr. Phelps is certain to be promptly recalled and thus both posts will be practically vacant.

THE QUEEN'S JOURNEY.

bright on her arrival at Windsor station. Only the railway officials and the Mayor of Windsor were on the platform to welcome her. No one was admitted to any station where the train stopped.

GIVEN UP FOR LOST.

San Francisco, Nov. 20.—The whaling bark Little Ohio, owned here, has been given up for lost, being long overdue. She carried 32 men and was valued at $150,000. As no tidings have been received of the boat or crew, it is supposed she must have sunk with all on board.

New York, Nov. 19—Quong Yues, ostensibly a laundryman at 305 West Twenty-fourth street, was arrested to-day. He is charged with smuggling forty packages of opium, the duty on which is $10 per pound, into this city from Canada.

Winnipeg, Man., Nov. 19—Prof. Macoun and party, who have been exploring the far-off McKenzie river district since last May, arrived at West Selkirk to-day. They came by way of Fort Churchill, on Hudson Bay, and Cumberland House, and had a very rough and tedious trip.

OLD HISTORIC BUILDING BURNED.

Nashua, N. H., Nov. 20—The old historic Chestnut street Methodist Church, now owned and occupied by Pease & Avery, furnishing goods, was burned this morning. Loss, $200,000.

A GREAT PROVINCIAL QUESTION.

Ottawa, Nov. 20—Nearly all the Provinces of the Dominion will send counsel to support the contentions of the Manitoba Government in the famous railway case to be argued before the Supreme Court to-morrow. Attorney-General Martin, of Manitoba, has arrived here. The Canadian Pacific Railway will not permit the Red River Valley Railway, which has been granted a charter by the Provincial Legislature, to cross their tracks, and the various Provinces now realize that if the interpretation of section 307 of the Railway Act, made by the Canadian Pacific Railway, is maintained, their powers to legislate in railway matters will be forever destroyed.

THE C. P. R. ABROAD.

The fame of the C. P. R. has spread to Africa. J. E. Thompson, of this city, who is Consul-General for Liberia, received a dispatch from the Liberian Government asking for the particulars of the construction of the C. P. R. It is not improbable the same parties may have an opportunity for tendering for the National Liberian Railway.

WILL ENTER A PROTEST.

A protest is to be entered against the return of R. S. White for Caldwell.

THE U. S. ALIEN LAW.

San Francisco, Nov. 20—Ex-Mayor W. H. Taylor, of Spokane Falls, is in the city to confer with Senators Jones, Stewart and others, in regard to the repeal of the Alien Land Law. "We are so close to the Canadians," said Mr. Taylor, in an interview, "that this Alien Land Law greatly interferes with us. Many foreigners would gladly come in and buy our wheat and timber lands, and become interested in our mines, but the alien law prohibits them from holding them in the territories. Many of them would become citizens in time and Coeur d'Alene which lies at our doors would have many investors in its mines. An English company stands ready to put $1,500,000 in some of the properties there, but it cannot do so the way things stand. Everybody in Spokane Falls, and I may say elsewhere in all the territories, is in favor of this repeal."

THE WHEAT MARKET.

London, Nov. 20—The *Mark Lane Express* in its review of the grain trade for the past few weeks, says English wheat values are against buyers; says country flour still turns dearer. THE LAND QUESTION.

The Colonist treats its readers to a dissertation on Welsh nationality. It is said that "Taffy was a Welchman," but the taffy contained in the effusion referred to will not, we think, be accepted as such by the main bellows of the "organ." The tune played will not suit. Throwing church and local government questions aside, the main point of the article is devoted to the land question. We are glad to note that the Colonist has at last been converted to the popular view of this important subject, and we agree with it that the Irish phases of the agrarian question will have effect in England, Scotland and Wales, as well as in Ireland. We again remind the "organ" that the agrarian question will not be left to spread its beneficial effects within the narrow compass of the British Isles. It has already found a footing on this continent. Amongst English-speaking peoples "landlordism" is doomed. We have no room here for great estates and discarded "landlords," who endeavor to perpetuate their baneful influences in a new country, and bulldoze the representatives of the people that government favor be carried in ate plundering of our public lands. The E. & N. Railway land bill appropriation was bad enough, but it had one redeeming feature, the country was benefitted by the construction of a railway. We have had members of the Government, their cousins and their aunts, grabbing the public domain for years. Like the Welsh agitators, the people of this Province may take the advice of the landlord's "organ" and sing in unison with it to the tune, "if they only wait they will, in the not very distant future, obtain all they desire." Such teachings must have an effect on the minds of the people, who are not slow to take a hint to keep out all land grabbers from having a say in the legislature of the Province, especially those who state that "they could support no government of which they were not a member."

BLUE BLOOD AND AMERICAN DOLLARS.

Of late years the most exclusive blue-blooded aristocracy in the universe has sought intermixture with the plebian stream of the great republic. The British "my Lud" seeks to mate with the fair daughters of American pork butchers, contractors, miners and speculators. The almighty dollar has tinctured the vital stream so as to make it palatable to the taste of an aristocracy of aristocracy. In lineage the two great Anglo families are again becoming allied in interests, trade and blood. A new bond of union, after the disruption of a century, is being gradually cemented and the blood shed in an unholy contest is being gradually intermixed in bonds of love. Love is a great conqueror and a great cementer of peoples and nations; 'tis the same with nations as it is with individuals. It, in time, conquers all things. Every day we hear of the wealthy American heiress linking her destiny with the aristocracy of the older land. American beauty lately captured an English Duke. His ancestor, the great warrior Duke, was but a child in the hands of the fair ANNE CHURCHILL. This course of married alliances between the new and the old country is not confined exclusively to the upper ten. Commoners are bowing to the influence of their American cousins. The politicians and thinking men are joining the great movement, and the miners' pick, the butchers' cleaver, or the hog's head on the labels of the Chicago packer, are being quartered with the heraldic devices of the followers of the conqueror. Royalty may yet seek a mate in the far west instead of the east. There is one thing that would be in its favor; the prairie hen of the west would have a golden nest egg. The same can not be said of her eastern competitor. Modern means of travel have brought the home of the American planter within as easy reach of the London drawingroom, as was Scotland within living memory. What changes in a short decade! What will be the result? The people separated for a time, through the mischievous tyrannical measures of blind politicians, who failed to understand those over whom they attempted to tyrannise, are again, by nature's law, becoming gradually more and more one and indivisable, and may yet become what Franklin said they should be "a great nation and a great people together." Things are pointing in this direction, and if we have not a political union we may look forward to one which is stronger—that of family and social intercourse. Blood is thicker than water, and this marriage intercourse will undoubtedly tell in future political relations of the two great Anglo people.

ELECTION BETS.

A good many people in the States are just now engaged in paying foolish bets made by them on the election. Some of them have interesting agreements to carry out. It will for instance be instructive to see the loser in one wager eating a quart of raw oatmeal, or to see the still more foolish bettor in another obliged to wear a petticoat through the streets. And of such silliness what good can come! There is something business like about the bet by which the loser is bound to shovel the snow off his neighbor's walks all winter, at least his neighbor will be very much disposed to think so; but the man who has to do the shovelling will be apt to think, as he flaps his arms to to keep his hands warm, that he might have made a much more agreeable wager. If he does not wish President CLEVELAND far enough for losing the election, he is more charitable-minded than the majority of his fellow mortals would be under similar circumstances. It does not do to have too much faith in the result of an election unless you live in British Columbia. Here the "office-hunter's" party win everything and always by means so honest (?) that they cannot be doubted. An election generally is like a horse race, and there is no telling who is going to win by looking at the programme and picking out the colors. The only things that are certain in this world, as some philosopher has discovered, are death and taxes.

EDITORIAL NOTE.

We are glad to note that the views expressed by us in our article yesterday on the Colonial Government questions coincide exactly with those put forth by Lord Canarvon in his letter to the London Times, which appears in to-day's dispatches.

Collectors of customs have been ordered to enter duty from Death or dead body entering New Brunswick had duty levied on it the other day. Canada is evidently no place for the dead to go to.

An Ottawa dispatch states that the indications are that the Federal authorities will assume the greater portion of the expense incurred by the trouble among the Indians on the Skeena River. This is what THE TIMES contended for from the first. The Dominion Government will lose nothing by conceding the just rights of the province in this matter.

The Northwest Prohibition Club has sent the following petition to the Legislature: "Resolved that the Northwest Legislature now in session be requested to submit the question of prohibition vs. license to the people at the polls at the earliest possible date, and to recommend the Dominion Government to provide such legislation at the approaching session of Parliament as will be in harmony with the wishes of the people as expressed by such a vote."

It is not a little singular that two Protestant nations, England and Germany, should be the first to respond to Cardinal Lavigerie's crusade against the African slave trade, which has never had arrayed against it such a combination of powers as are now preparing to attack it. After all humanity is broader than sect, and the most ardent Protestant will think none the less of these countries' Christian resolution because its inspiring cause came almost direct from the head of the Roman Catholic church.

Toronto Globe: Cleveland must have gained by his tariff policy or he would not (1) have achieved a popular majority likely to exceed 100,000; (2) have carried Connecticut and New Jersey, both great manufacturing States, the latter by double his former majority; (3) almost carried Indiana, General Harrison's own State, and (4) almost carried New York State in spite of (1) treachery on the part of the supporters of Governor Hill and Mayor-elect Grant, and (2) Mugwump disaffection in Brooklyn, arising from the refusal to oppose Governor Hill's renomination actively. Probably no man had a harder row to hoe than Cleveland. He failed, not because he pluckily faced the much-be-straddled tariff question, but because, at a critical moment, his courage was not equal to taking part with one or the other of the rival factions in New York City.

Winnipeg Call: With the approach of winter the car heating question is becoming a source of discussion in American papers, and it is urged that the stove must be universally abolished. In New York State a law exists making it unlawful for steam railroads over fifty miles in length to heat their passenger cars on other than mixed trains by stoves and furnaces, except temporarily, in case of accident or other emergency. In certain cases stoves may be retained, to be used when the cars are standing still, and stoves of a form to be approved by the commissioners may be used for cooking purposes in dining-room cars. Beyond these exceptions, however, the use of stoves is prohibited. This question has been very satisfactorily solved in this country by the steam heating system which the Canadian Pacific Railway have adopted, and by which travel in winter is rendered comfortable as well as safe.

The demonstrations held in various American cities on the occasion of the first anniversary of the execution of the Haymarket bomb-throwers show that the spirit of anarchism still lives and flourishes to an alarming extent. Though comparatively little has been heard of the anarchists since the hanging a year ago, there can be little doubt that they are nursing their wrath and it is possible that the world may some day be startled by an event exceeding in horror that of the Haymarket. Those who took part in the demonstrations at Chicago, New York, Boston and other cities last week cannot but be looked upon as enemies of the state and as walking closely in the steps of the executed men. The Chicago Herald says that the anarchists of that city and the sordid souls who sell beer to them are teaching children to despise the power of the state. Religion, society, commerce, all the institutions of the commonwealth and of civilization are denounced as heretical and despotic. The bitterness of the speeches reveals the hope of revenge that is treasured by the anarchists, who have not yet fallen directly into the dreadful accounting which the state can at any time require of individuals.

CITY AND PROVINCE.

—Ill-fitting boots and shoes cause corns. Holloway's Corn Cure is the article to use. Get a bottle at once and cure your corns.

—If your children are troubled with worms, give them Mother Graves' Worm Exterminator; safe, sure and effectual. Try it, and mark the improvement in your child.

—A Bangor lawyer, who is noted for his absent-mindedness, went up his own stairs the other day, and seeing a notice on his door, "Back at 2 o'clock," sat down to wait for himself.

—The Horse—noblest of the brute creation—when suffering from a cut, abrasion, or sore, derives as much benefit as his master in a like predicament, from the healing, soothing notion of Dr. Thomas' Eclectric Oil. Lameness, swelling of the neck, stiffness of the joints, throat and lungs, are relieved by it.

—Capt. Miles Standish, who came over in the Mayflower in 1620, has a direct descendant in Waldsboro, Mexico. His name is Miles W. Standish and he has a son who is also named Miles.

—If a few grains of common sense could be infused into the thick noddles of those who perpetually and alternately irritate and weaken their stomachs and bowels with drastic purgatives, they would use the highly accredited and healthful laxative and tonic, Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, which causes "good digestion to wait on appetite, and health on both."

—The investigations into the cause of Koch's Paralysis, from one to four or five times, except May; that month not one.

—Henry Clement, Almonte, writes:—"For a long time I was troubled with Chronic Rheumatism, at times wholly disabled; I tried anything and everything recommended, but failed to get any benefit until a gentleman who was cured of Rheumatism by Dr. Thomas' Eclectric Oil told me about it. I began using it both internally and externally, and before two bottles were used I was radically cured. We find it a household medicine, and for croup, burns, cuts and bruises, it has no equal."

—The approaching visit of the Empress of Austria to America has thrown Boston into a fever of excitement. It is rumored that Boston is willing to economize on her baseball team in order to give the Austrian Queen a gorgeous reception.

—Mr. John Magwood, Victoria Road, writes: "Northrop's & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers say they never used anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troubled for 9 or 10 years with Dyspepsia, and since using it digestion goes on without that depressed feeling so well known to dyspeptics. I have no hesitation in recommending it in any case of Indigestion, Constipation, Heartburn, or troubles arising from a disordered stomach."

TARDY JUSTICE.

To the Editor of The Times:

Sir,—Is there any good reason why the Police Court in this city should be opened at 11 o'clock every morning? Justice Richards wishes to commence proceedings at an earlier hour. The lawyers in the Supreme Court are engaged on cases at 11 o'clock, and the majority of witnesses are ready for lunch when the Court opens. Cases are becoming more numerous, and it will be more convenient for all concerned to start at an earlier hour. Incog.

[We know of no reason for opening the Police Court at such a late hour. All who have business at the Court would be pleased to have it over in the forenoon; but it seems that, notwithstanding the general desire, it can't be done.—Ed.]

COLONIST VS. DR. GRIFFIN.

To the Editor of The Times:

Sir,—The *Colonist* refers to Mrs. Griffin's illness at the police court as "pre-arranged and a neat bit of by-play," to gain the sympathy of the court and spectators—a statement which is entirely wrong, and shows the animus of the *Colonist* in writing such prejudiced and ungentlemanly comments. The doctor's wife, instead of going into hysterics in the presence of the court and on-lookers, which she would have done had it been a trick to obtain sympathy, walked out of the room away from the sight and hearing of those within, and remained at the entrance of the hall for a few moments, when she fainted and went into hysterics. Of course her cries were soon heard. Hence I think her actions were the opposite of trickery and sham. Any woman who has some regard and feeling for her husband would have been liable to the same attack. The lady is in a precarious condition besides. The doctor should have a fair show regardless of the misrepresentations of the *Colonist*. Allusion is also made to the perspiration coming from the doctor's brow. No one could do that through a pretence, hence the absurdity of the *Colonist*'s remarks. A subscriber to the *Colonist* pointed out to me its report in reference to Mrs. Griffin, and characterized it as "low, mean and brutal." Observer.

THE DOWAGER EMPRESS

Arrives in London—Affecting Meeting With her Mother.

London, Nov. 19—The Dowager Empress Frederick of Prussia arrived to-day at Port Victoria, on the Royal yacht Victoria and Albert. The Queen and Princesses Beatrice and Louise started from Windsor this morning to meet the Empress upon her arrival. Count Von Hatzfeldt, German Ambassador, joined the party at Waterloo Railway station and accompanied the ladies to Port Victoria. There was a small crowd of men at the station who remained unc overed when the Queen appeared. They did not cheer or make any demonstration. The meeting in the yacht saloon between the Queen and her daughter was very affecting. The entire party then took the train, which stopped at Waterloo station. On its return, as the train drew up to the station, Von Hatzfeldt made his adieus and alighted. When the train began moving out, however, the Queen suddenly remembered she had omitted to invite the German Ambassador to Windsor, as she had intended doing. In a moment Princess Beatrice called from the carriage window to the Duke of Cambridge, who was standing on the platform: "Count Von Hatzfeldt is to accompany us to Windsor." The train had started and the Count was obliged to follow by a later train. The Count was deeply affronted as I had a long interview with Lord Salisbury on the subject. A telegraph from the Queen, explaining and regretting the oversight, smoothed matters over and he went away content, subsequently repairing to Windsor, where he was dined and flattered until no vestige of resentment remained in his bosom.

THE AMERICAN GIRL.

Britons Alarmed at the Importation of Yankee Brides.

The newspapers all over England are devoting columns of comment to Chamberlain's marriage with Miss Endicott. Independently of political considerations the doors of a large number of the great houses in England are always open to Chamberlain, and in London, Birmingham and the Midland counties in particular his wife will become a figure of great social prominence. The *Pall Mall Gazette* says: "The advent of an American girl into English society was at first a curiosity. It soon became a potent. It is now assuming the dimensions of a menace. Before long it will be recognized as a calamity. Of all forms of competition there is none so deadly as this. We can stand our farmers being ruined by American corn, we can listen unmoved to the wails of graziers made bankrupt by the influence of the American beef; but the American girl is too much. Already we hear the murmur of the drawing-room growl of the despairing Belgravian mother, who sees season after season American girls swoop down upon the most eligible and cut our girls out before the very eyes of the distracted parents. That murmur is growing and before long will rival the lament of the Pacific coast over the influx of the heathen Chinese. We are being ruined, not by Chinese cheap labor, but by the bounty-fed competition of the American girl. How can we cope with it? What is to be done? Are we to impose a prohibitive tariff on this description of American produce? The Prince of Wales is, of course, most to blame in this matter. Instead of discouraging the disastrous influx of American beauty, as was the bounden duty of every good Briton, this unoccasionable prince took the fair intruder under his special patronage. An ingenius correspondent recently sent us a suggestion that there is a true way in which to give the American tit for their recent tat in re Sackville. This was for his Royal Highness to boycott the American element in London. We fear, however that the Prince is too much of a free trader to listen for a moment to any suggestion as to reprisals, and that we must look elsewhere for remedies, if remedies there may be, for this intolerable competition.

The advantages of the American girl in the marriage market are briefly these: She has more intelligence and more money; she is not kept in the band box, but has a practical experience of affairs; her education, as a rule, is better, and, if her complexion is not always so good, she makes up for it by her fortune. It is curious that so many of the English who marry Americans have tried an English wife before they venture upon marrying an American. Chamberlain is a case in point."

TELEGRAPHIC NEWS.

Cable and American Dispatches—Interesting Items.

Washington, Nov. 17—The story published a few days ago to the effect that Lord Sackville West's daughter snubbed Mrs. Cleveland is authoratively denied at the British legation. Miss West says that upon the occasion referred to she did not see Mrs. Cleveland or she would have spoken to her.

LONDON SOCIALIST MEETING.

London, Nov. 19—The anniversary of the socialist demonstration at Trafalgar Square and the executions of the Chicago anarchists, was celebrated in Victoria Park to-day. The gathering was immense and speeches were made from three platforms. Mrs. Lucy Parsons spoke from one of them, advocating the use of bombs, and Commoner Graham occupied another in denouncing capitalists and landlords. Unpaid and workers he asserted, were organized to take possession of land, capital and machinery for their own benefit, and they would continue this agitation until something was accomplished toward the ends sought. Failing to attain these objects they would remain slaves until the scenes of Trafalgar Square and Chicago were repeated.

FASTEST ON RECORD.

New York, Nov. 19.—The Cunarder Umbria, which arrived at Queenstown last evening, made the fastest eastward run on record. Her corrected time was 6 days, 2 hours, 35 minutes. Her best previous eastward run was 6d., 7h., 15m. The best eastward run of the Etruria is 6d., 4h., 40m., made in April last. The Umbria thus beats this record 1h., 45m.

FLOUR MILLS SHUT DOWN.

Minneapolis, Nov. 19.—Five of the Minneapolis flour mills, representing 7,000 barrels daily capacity, or 25 per cent. of the city's daily capacity, are now shut down.

A ROUGH OCEAN TRIP.

New York, Nov. 19—One man killed and five injured is the record of the trip of the Cunarder Etruria, which arrived at her dock this evening, after a voyage of a little over seven days of terrible weather, during all of which the passengers remained in their cabins, badly frightened and suffering great discomfort. It was one of the roughest experiences that the Etruria's officers have ever known. The passengers expressed some displeasure over the fact that the speed of the vessel was never slackened, and the time made was nearly up to racing standard. The officers, on the other hand, say that this complaint is unreasonable, as the rate of speed has nothing to do with the comfort or safety of those on board during gales and heavy seas.

COLONIAL GOVERNORS.

London, Nov. 19—Lord Carnarvon has written to the *Times* opposing the suggestion that colonial governors be chosen by the colonies. The plan, he says, implies the appointment by whatever is in the control of the colonial parliament, and the abandonement of one of the few prerogatives remaining to the crown, which he believes are in a great measure in the interests of the colonies, as enabling the crown to satisfactorily discharge its duties to them. Concluding, he says: "The dispute requires careful handling. We must trust to the temper and good sense of both sides."

WILL RESIDE IN ENGLAND.

London, Nov. 19—It is reported that Empress Frederick will eventually take up her residence permanently in England, and already agents are casting about for a suitable location.

ANOTHER McGLYNN CASE.

London, Nov. 19.—It is announced that the Vatican authorities have acted against Bishop Logue of Raphoe, for presiding at a banquet given in celebration of the release of Father McFadden from prison, and also for permitting McFadden to be absent from his parish for the purpose of making a political tour of England. The case is beginning to resemble that of Dr. McGlynn in New York.

THE BLACK HAND.

London, Nov. 19.—At to-day's meeting of the Parnell commission, Presiding Justice Hannan intimated that the court would decide in the matter of the disclosure of documents; that all the documents in the possession of the *Times*, including even those which the *Times*' solicitor thought spurious, should be disclosed, in order to assist in the search for truth.

Sir Charles Russell, counsel for the Parnellites, stated that he had received several threatening letters.

Justice Hannan remarked that he also, and probably others engaged in the case, had received similar letters. The intimidation of witnesses, he said, was so certain that the precaution must be taken to allow the premature disclosure of their names.

Taking the evidence relative to the outrages was then proceeded with.

James Manuion declared himself a Fenian and a member of the National League. He had taken part in several outrages and one moonlight expedition. He knew no moonlighter who was not also a member of the league.

Peter Flaherty, a farmer of Galway, testified that he was a moonlighter and not ashamed to acknowledge it. He was perfectly ready to act with the moonlighters again.

Edward Flannagan said he had been in America since 1879. He had been present at numerous league meetings in Pittsburg and New York, at which Stephen J. Meany had presided. He said Meany collected funds for the purpose of buying firearms for use in Ireland. Adjourned.

CHOKED WITH MEAT.

Quebec, Nov. 20—Aphanese Julien aged fifty, a shoemaker of St. Savior, was choked to death by a piece of meat while at dinner on Saturday.

A RUNAWAY WIFE.

Kingston, Nov. 20—On Saturday a resident of Alden named Flynn, came to the city to recover his wife and the mother of seven children who three months ago eloped with a boarder named Balme. Her infatuation was most complete. She left a good home for life as a waitress in an hotel in Gananoque, whither the pair came to Kingston, her lover securing employment in the water works trenches. When Mrs. Flynn saw her husband and son she relented and in an hour was *en route* home with them.

PREPARING FOR ARGUMENT.

Ottawa, Nov. 19—Judge Clark, C. P. R. solicitor, is here preparing his argument in the Manitoba railway case which comes before the Supreme Court on the 21st instant. Mr. Martin has not arrived.

FOUR HUNDRED SLAVES.

Zanzibar, Nov. 16—British officers boarded the Belgian steamer Baba, off the coast to-day, and found that she was carrying 400 slaves, who were destined for the Congo. The British took off all the slaves, they having been forcibly kidnapped, and allowed the vessel to proceed. The incident has caused a scandal, it having been found that arrangements for the traffic were made through a former Belgian Consul.

A BEAR DOES DAMAGE.

Toronto, Nov. 19—A large black bear which a butcher at Parkdale was feeding up to kill at Christmas broke its chain and escaped last night. While roaming the streets it attacked a young man, John Shaw, and before help came almost killed him. It ate a large piece out of the leg and calf of the left leg and bugged him until he fainted with pain. His body was terribly lacerated. The police arrived and finally killed the bear and Shaw was sent to the hospital.

LAST TRIP THIS WINTER.

Montreal, Nov. 19—The Richelieu and Ontario Navigation Company's steamer Quebec makes the last trip of the season to Quebec this evening.

Making Warfare Endurable.

It is a sign of advancing civilization that the inventors of military machinery are turning their attention from contrivances to make war more murderous to devices for making battles less annoying to outsiders. An Englishman has invented a vapor gun, which will discharge sixty missiles a minute silently and invisibly. One of the chief objections to a heavy engagement in these days of ponderous guns, is the din of the artillery. The belligerents seldom have any consideration for the comfort of non-combatants, and as likely as not they begin their racket at daylight, just when other people want to sleep. Another nuisance is the villainous smell of burnt powder. Were it not for this odor many a carpet knight would have become a battle-grimed sutler or a hero of the commissariat. The Englishman's steam gun does away with both of these offensive features of war, and goes a long way toward making wholesale murder a decent and quiet proceeding. If people must go out in bands to kill each other, they ought to do it without making a general and unnecessary disturbance of the peace. But in order to make warfare entirely esthetic and inoffensive to persons of supersensative temperament, or who are not directly involved, somebody should devise a missile that will do its work without covering a battlefield with unpleasantly shredded and mangled remains. Shells loaded with the deadly sewer gases might be effective. There is no patent on the suggestion.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

PERSONAL.

Items Telling of the Movements of Well Known Persons.

Ernest V. Bodwell arrived this morning on the steamer Olympian. He has been absent for the past few weeks in Ottawa as counsel in the appeal case of Higgins *versus* Walkem.

W J Taylor returned from Seattle this morning.

W A Russell, steamboat inspector, returned last night on the steamer Princess Louise.

Father Cathaldo, Superior of the Jesuits west of the Rocky mountains, is in this city.

J C McLagan, editor of the Vancouver *World*, returned to Vancouver this morning.

Mrs. Griffin, wife of Dr G H. Griffin, will shortly leave for London, Ont., where her relatives reside.

Jesse Cowper arrived from New Westminster last evening.

F B Pemberton was amongst the mainland passengers on the steamer Princess Louise last night.

Rev Mr Longley, who was driven from a Methodist church in Toronto, by a grave scandal, has gone to Europe on an extended tour among old historic scenes.

R D Atkins, the well-known mining engineer, who has been engaged for several months inspecting mining property in the province, on behalf of English capitalists, left for England this morning.

W D Mackay of Seattle, is at the Driard.

George E Thompson, D D S, of Brantford, Ont., is at the Driard.

D M McGillivray, the popular contractor of Vancouver, is at the Driard. Rumor has it that he is here on a tender mission.

We were pleased to see Mr Francis Walker on the streets to-day. He has been under medical treatment in St. Joseph's Hospital for the past eight months. Mr. Walker will leave for the upper country to-morrow morning.

T O Moody is convalescent and was attending to business to-day.

W E Osterhout, of Nanaimo, is at the Oriental.

N W Lundbom, of New Westminster, is at the Oriental.

For the North.

The steamer Ancon will arrive from Puget Sound this evening and will leave at midnight for Alaska. The Ancon will sail from the outer wharf.

Grand Masquerade Ball.

Prof. Oliver will give his second masquerade ball of the season on Friday next, Nov. 23d, at which four prizes will be given, two for the finest costumes, lady and gentleman, and two for the best sustained characters.

Cause of Detention.

A passenger by the Walla Walla says the steamer went about forty miles out of her course, owing to the officers losing their reckoning in consequence of the dense fog. The delay thereby caused will account for the lateness of the vessel's arrival.

Orange Blossoms.

The marriage of Mr. Daniel McGillvary, a successful contractor of Vancouver, and Miss Sarah Douglas Parker, sister of Mrs. Charles Wilson, will take place at Christ Church Cathedral to-morrow morning. THE TIMES extends congratulations in advance.

A Pleasing Sense

Of health and strength renewed and of ease and comfort follows the use of Syrup of Figs, as it acts in harmony with nature to effectually cleanse the system when costive or bilious. For sale in 75 cent. bottles by all leading druggists.

Runaway.

W. Lawson's horses, attached to a truck, ran away from the gas works at 1 o'clock this afternoon. They ran along Government street, down Yates street to Wharf street, and then bolted across James Bay bridge. When the horses reached Bird Cage Walk they fell and were secured. The only damage done was a broken whiffle-tree.

Dramatic Entertainment.

St. Joseph's Social and Literary Society will give a dramatic entertainment at Philharmonic Hall on the 21st inst. A number of ladies and gentlemen have been rehearsing for some time, and dramatic performances by local amateurs will form a favorable pastime during the winter months. The members of the organization belong to St. Joseph's Society and the recently organized Young Men's Institute.

Leprosy.

The attention of the Dominion authorities is called to a Chinese leper who has been engaged for some months past in the illicit sale of intoxicating liquors to Indians. The Chinaman was convicted on two occasions in the city police court and was refused admittance in the Provincial gaol. The man is said to supply large quantities of liquor to Indians, and it behooves the Dominion Superintendent of Indian Affairs to take steps to place this man in confinement.

Who Can Vote.

Several young men who pay more than $60 a year for room rent and lodging are enquiring whether they can vote at the municipal elections or not. It is found on investigation that they cannot. The man who rents a little cabin for which he pays $60 a year rent can vote although the man who pays for a room in a lodging house can not. The man who holds a trade or hackman's license can also vote, though one license will only cost $5 and the other $2.50. Herein is an inconsistency and injustice to the young men of the city which they should make a very vigorous "kick" against.

Quarantine.

Passengers on the steamers from San Francisco have been detained until morning when the P.C. steamers arrived during the night. The San Francisco agent entered a protest and requested the Health Officer, Dr. Jackson, to inspect their vessels immediately on their arrival. Dr. Jackson immediately telegraphed to Ottawa and received the following answer from Deputy Minister Lowe: "Pending amendment to the quarantine regulations, and the better to afford facility of night inspection for the San Francisco steamers, not the same as at Grosse Isle, which permits of vessels being examined at all hours."

Moody's Meetings.

Speaking of going to sleep in a meeting, the Rev. A. E. Dunning, of Boston, said that even the most powerful speakers were sometimes annoyed by this lapse in the pews. "I have seen people go to sleep under Dwight L. Moody's preaching. If Mr. Moody detects it he calls on the nodding person's next neighbor to wake him up. 'Poke that fellow and wake him up. 'Poke that fellow and wake him up,' I once heard him call out to a man who sat next to a sleeper. 'I don't dare to,' replied the man. 'You don't dare not to,' retorted Moody. 'His soul may be lost if he doesn't wake up. Nudge him! I can't stand it to have him sleeping there.'" At another time Dr. Dunning was at one of Moody's meetings when a baby cried. The mother tried in vain to hush the child, and seemed much annoyed. "Never mind, madame," said Moody. "The baby doesn't disturb me." "That may be," the woman answered, "but you disturb the baby!"

Who Can Vote.

Mayor Grant has handed us the following for publication:

The following conditions and requirements, if complied with, will enable persons to vote at the coming municipal election in this city.

"Any male or female, being of the full age of twenty-one years, who is rated upon the assessment roll of the municipality, and who has paid on or before the first day of December in each year all municipal rates, taxes and license fees, or has resided and been a householder in the municipality for six months before the election at a rental or rent value of not less than sixty dollars per annum; provided always that every person claiming to vote as a householder shall be a British subject, and on or before the first day of December in each year shall enter with the assessor his or her name as a voter, but no such voter shall be required to re-register after being once registered."

Or any male or female of the full age of twenty-one years who has paid or who may pay a license for the present six months and has been a resident of Victoria for one year previous to the day of election is entitled to vote.

OUR TOWN MAJOR.

Unique Animals, Birds and Beasts—Lecture on Zoology.

"To be or not to be, that is the question." We have a "black hand" in our midst and it writes upon the wall: "Woe! Woe! unto thee, the city of the beautiful, for you have a Duck of a thing looking after your golden eggs." It must be recollected that the Duck has also other eggs to look after. Make her keep to one nest. Like water, timely advice runs off the duck's back. Ducks are very voracious birds, they gobble up every thing they can lay their bills on. The city fathers should keep their Duck in their own barn yard; if the bird keeps wandering between the City Hall and James Bay it will be run over and get hurt.

What an age we live in! The organ grinder on Government street likens his chief patron, who chucks a copper into the hat now and again, to a monkey! What next?

"Had I the wings of a dove, I'd fly to thee." Yes! friends and acquaintances, we'd all fly from the wrath to come, and we'd fly anywhere to get out of the way if we had wings. There's none of us angels and we are not likely to have them. Now, if the Major was a *Duck*, he'd make an endeavor to fly away from THE TIMES. Why not start a zoological gardens? We have an unique bird, the organ grinder and his monkey; and had also a bear, but his owner claimed him.

The elections are coming on; register your votes and vote for honesty against mountebanks, organ grinders and all who have an axe of their own to grind. We all grind a tune of our own and sometimes one we have nothing to do with. Some tunes are lively when they should be mournful, yet we all can sing, "Oh had I the wings of a dove." So does

THE TOWN MAJOR.

DR. G. HAMILTON GRIFFIN.

The Black Hand—Evidence of a San Francisco Detective.

The police room was crowded this morning to hear the continuation of the evidence in the charge preferred against Dr. G. Hamilton Griffin. After disposing of the petty cases the Doctor was ushered into the court room and took his seat near his counsel, F. G. Walker.

Mr. J. G. Taylor was present on behalf of the prosecution.

The first witness called was Howard L. Branthaver, of Mahoney's Detective Agency. He stated—I have been in Victoria since September 10th; I went to the Occidental hotel; registered there under the name of B. L. Howard; my business is operative detective; I received a good many letters whilst at the hotel; I received the letter produced whilst at the hotel; I have been acting under the instructions of J. H. Mahoney's Detective Agency; I have been shadowing Dr. Griffin.

Mr. Walker said he had no questions to ask.

Mr. Taylor—I have proved that a threatening letter was sent Mr. Howard; Atherson posted the letter and the witness, Howard, received it.

Mr. Walker—That witness is not named Howard.

Mr. Taylor—Yes, he said he went under the name of Howard.

M. Lopetecki, recalled—The translation of the letter produced is:

Victoria, Oct. 11th.

Mr. Sir Howard—You and Mr. Lopetecki are fools. We know more than you think of. Take care. It would be better for you to return to San Francisco.

Mr. Taylor—I now rest the prosecution on the evidence produced. I would now ask for the committal of Dr. Griffin.

His Honor then ordered the clerk to read over the evidence for the prosecution.

Mr. Walker—I suppose I can call witnesses for the defense after the reading of evidence for the prosecution?

His Honor—I will hear you after reading the evidence.

The Clerk, Mr. Dowler, then read over the evidence and His Honor gave the usual caution and asked Dr. Griffin whether he had anything to say.

Dr. Griffin—I have nothing to say, sir. Not here.

Mr. Walker—Does Your Honor consider a *prima facia* case has been made out?

His Honor—I do.

Mr. Walker—I will then ask for a remand until to-morrow to call witnesses for the defense.

Mr. Taylor—We offer no objection, but I do not consider that evidence should be called for the defense at the investigation.

His Honor—I always allow the defense to call witnesses.

Mr. Walker—I think Your Honor must hear witnesses for the defense.

His Honor—I do not think it is compulsory to hear evidence for the defense, although I always allow it.

Mr. Taylor—At an investigation in the police court evidence for the defense should not be heard; but we will offer no objection.

His Honor instructed all witnesses for the defense to be present at 11 o'clock to-morrow morning.

POLICE COURT.

[Before Hon. A. N. Richards, Q.C.]

Another crowded house greeted the Police Magistrate this morning. The first case called by the stentorian voice of the clerk was: "Johnny Feathers, a Cowichan Indian, charged with being drunk."

"Mika patlum salikee sun," said the Superintendent.

"Nawitka," said Johnny Feathers.

"He has been here before," the Magistrate remarked.

"That he has," said the Superintendent. "He is always drunk."

"Ask him whether he can pay a fine of $5," said the Magistrate.

When Johnny Feathers informed the Court that he was without funds he was sentenced to imprisonment for one month.

Jenny, a dusky maiden of the forest, said that she did not know that a bottle of liquor occupied a prominent place amongst the various articles of her household furniture. Fined $5 or imprisonment for one month.

Paul, an Indian, was charged with being in possession of an intoxicant. Mr. McNab Stuart appeared for the Indian and asked for a remand for one day to procure the Chinaman who supplied the liquor.

Supt. Sheppard said he had no objection.

His Honor—The prisoner might go out and charge any Chinaman with the offence in order to clear himself.

Supt. Sheppard—An Indian constable arrested the prisoner and a Chinaman. He could not hold both men and was compelled to let the Chinaman run away. He held on to his friend the Indian.

The Indian returned after an hour's search with a constable and said the Chinaman who sold the liquor was a well known leper. The police did not arrest the Chinaman, considering it unsafe to have him in the lock-up. The Indian was sentenced to pay a fine of $25 or suffer imprisonment for one month.

White Turkeys.

Among the Northern Pacific Express to-day were three magnificent white Holland turkeys for Mr. John Turner of this city. They were brought from Paxton, Illinois, and are as beautiful birds as one could wish to see.

The Street Railway.

At a meeting of the Street and Electric Light Committees of the City Council, held last evening, Capt. J. D. Warren and associates were present, the basis of an agreement was arrived at for the establishment of an electric street railway system in Victoria. The matter will likely come before the Council on Wednesday next for ratification.

U. S. S. Thetis.

This vessel will sail to-morrow for San Francisco, after a stay of one week in Esquimalt harbor. The officers and men were on shore on several occasions and have made many friends. Lieut.-Commander Emory and his gallant crew consider that they have been treated right royally during their stay, and will carry away fond remembrances of their stay in Victoria.

Marine Notes.

Hawaiian bark W. B. Godfrey, from Nanaimo, arrived at Honolulu on Oct. 28th.

Bark G. O. Whitmore sailed on Oct. 25th from Honolulu for Royal Roads.

German bark Paul, for Esquimalt, sailed from London on Oct. 21st.

British ship Mizapore, from Moodyville, arrived at Valparaiso on Oct 3d.

Steamer Walla Walla arrived at 6 o'clock last night. The steamer was detained by heavy fogs and left again at 10 o'clock last night for Puget Sound.

Simpson the Embezzler.

Young Simpson, the Tacoma embezzler, arrested at Kamloops, on his arrival at Vancouver on Sunday was quickly placed on board of a tug, which the officers had ordered to be in waiting for them, and conveyed out of British territory. Once he had signified his willingness to return and stand his trial, as little time as possible was given him to change his mind. Had he done so it would probably have been impossible to get him into an American court, as he does not seem to have been guilty of any extraditable offence. Mr. W. J. Taylor who returned from Tacoma this morning was over in connection with the case.

Last Evening's Banquet.

A banquet was given at the Driard last evening by Mr. W. I. Anderson Haver, a young English gentleman from Lumby Island, who took this pleasant means of celebrating his birthday. One hundred and fifty invitations were issued to the officers of the U. S. S. Thetis, officers of H. M. S. Espiegle, C. Battery and private citizens of Victoria. Among the latter were Chief Justice Begbie, Commissioner Smith, of the H. B. Co., and others. The *chef de cusine* on this occasion sustained the high reputation of the Driard, and the occasion was a most enjoyable one in every respect.

Commander Emory and officers of the Thetis have been invited to dine at Government House this evening.

SUPREME COURT.

Action of Review—Atwell King Estate—This was a petition presented by Mr. Joshua Davies to Mr. Justice Gray to review the whole of the proceedings in the celebrated case of Turner, Beeton & Co. vs. King, Joshua Davies, claimant, in which case the Chief Justice, acting as County Court Judge, gave judgment first in favor of Turner, Beeton & Co. and which was subsequently approved by the Court of Appeals; also to review the proceedings in the action of the Bank of B. C. vs. King, Davies, claimant. His Lordship, Mr. Justice Gray, to-day delivered an elaborate judgment dismissing the petition as against Turner, Beeton & Co., without costs, and granting leave to Mr. Davies to commence an action to review the proceedings in the Bank case. Mr. Theo. Davie, Q.C., instructed by Mr. C. Wilson, for Mr. Davies; Mr. S. Perry Mills, for Turner, Beeton & Co.; Mr. Helmcken for the Bank of B. C.

KILRAIN AND MITCHELL.

Philadelphia, Nov. 20—Kilrain and Mitchell posed at the central theatre last night as gladiators. Kilrain when introduced as champion of the world was hissed and hooted by the gallery who yelled "Sullivan Sullivan." Mitchell posed as Sullivan and was given an ovation. After the performance Kilrain and Mitchell were mobbed by a crowd at the stage door and narrowly escaped without injury.

—The Emma Abbott Company opened in the Baldwin Theatre, San Francisco on Monday night.
